

DEHUMIDIFIER TD-C 1420

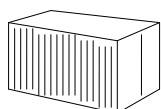

TOYOTOMI

Gross Weight
17,0 kg

Net Weight
15,0 kg

20 ft = 720 pcs.
40 ft = 1.468 pcs.
HQ = 1.834 pcs.

Product data sheet

Product range	Portable Dehumidifier
Product line	Compressor Type
Brand name	TOYOTOMI
Model name	TD – C 1420
Colour	White
EAN code	4963505830014

Technical specification

Type	Compressor type	
Capacity (30°C / 80% RH)	L/day	20
Tank capacity	L	3.5
Mains	V/Hz	220-240/50
Suitable space	M ²	20
	M ³	50
Operation Temperature	°C	7 – 35
Air volume	M ³ /hr	350
Operation mode	Power Consumption	Noise Level
High	310 W	≤ 46 dB
Low	n.a.	n.a.
Refrigerant	R 290	
Unit protection	IPX 0	
Dimension unit (w x d x h)	Mm	342 x 251 x 561
Dim. carton (w xd x h)	Mm	408 x 316 x 642
Weight	Kg	15,0
Guarantee	years	2
Manual	GB/NL/FR/IT/ES/DK/PT/PL/SE

Features

■ COMPRESSOR TYPE DEHUMIDIFIER

The idea behind this unit is to have it dehumidify in an efficient way the whole season, so called localized dehumidification. This unit will keep on dehumidifying at maximum capacity between 7 - 35 °C. The unit will greatly enhance your personal comfort whether at work office, home or particular usage like cellar, boat, caravan. Furnishing, fabrics and clothes are kept in good condition, easy to dry your laundry, the unit creates dry air zone anywhere you need it.

■ LIGHTWEIGHT PORTABLE “ESTHETIC & MODERN” DESIGN

The unit weighs only 15,0 kg, easy to handle, provided with built in handle, 4 hidden “multi-directional” castors makes the unit mobile and easy to transport. It has a unique, compact body.

■ AUTOMATIC OPERATION

This unit is equipped with humidity sensor and adjustable humidistat, electronic control and LED display, indicating the current room humidity level as well as the selected humidity level. It has a powerful maximum dehumidifying capacity of up to 20 L /24hrs.

■ ANTI BACTERIAL / ALLERGIC AIR FILTER + ACTIVE CARBON FILTER

The new white clean design unit with delicate light grey and easy access “touch screen” operation panel, a built in handle for easy carrying and anti bacterial/ dust screen filter which can easily be cleaned.

■ LOW TEMPERATURE OPERATION + AUTOMATIC DEFROST

When unit is running under the condition of $7^{\circ}\text{C} \leq \text{room temperature} \leq 12^{\circ}\text{C}$, it will be stopped automatically to defrost for every 30 minutes.

■ ON/OFF-TIMER

The unit has an off-timer function which can be selected from 2 Hrs.to 24 Hrs.

■ ENERGY EFFICIENT + ENVIRONMENT FRIENDLY

The unit features low power consumption and uses environment friendly refrigerant R290.

■ QUIET OPERATION

The unit operates with a low noise level.

■ TOP AIR LOUVRE OUTLET:

The unit has a top air louver outlet with auto swing mode, with a wide 180 degrees angle, which makes it easy to dry your laundry.

■ BIG SIZE WATER TANK (3.5 LITER) + FULL TANK INDICATOR

The big water tank of 3.5 liters will minimize the numbers of drainages per day. It can easily be taken out from the backside. When the drainage tank is full, the tank “full” indicator LED light will turn on to alert the user.

■ CONTINUOUS DRAINAGE OPTION

In case of a more permanent setting, you can easily connect a permanent drain tube into the unit straight to the sink. Especially when the unit will be installed at a higher level against the wall this permanent drain will be highly effective. A plastic tube (2 m) is delivered inside the box as a standard accessory.

■ FULL COLOR CARTON BOX

The unit is delivered in a “full color gift” box, showing extensive messages on features and technical information.
